**REPORT ON THE STATUS OF THE BUSINESS RESCUE PROCEEDINGS OF CONSOLIDATED  
INFRASTRUCTURE GROUP LIMITED (IN BUSINESS RESCUE) ("COMPANY" or "CIG")**

1. In accordance with section 132(3)(a) and section 132(3)(b) of the Companies Act 71 of 2008, as amended ("**Act**") when the business rescue proceedings of a company have not concluded within 3 months of the date on which they started, a business rescue practitioner is required to–
  - 1.1. prepare a report on the progress of the business rescue, and update it at the end of each month until the end of the business rescue proceedings; and
  - 1.2. deliver the report and each update to each affected person and to the Companies and Intellectual Property Commission ("**CIPC**").
2. Accordingly, we hereby provide you with the November 2021 report on the status of the Company's business rescue proceedings.
3. Capitalised words not otherwise defined in this notice shall have the meaning ascribed to them in the Plan.
4. Affected Persons are hereby updated on the following matters which remain relevant since the publication and distribution of the October 2021 status update report:
  - 4.1. Asset and Business Sales – Negotiations regarding potential sales processes related to assets and businesses of the Company which are available to realise potential value for the Company's Affected Persons, are ongoing. As the Company has delisted, updates with regards to the sale processes shall be included in these monthly reports.

Sale of Major Assets:

- 4.1.1. Conlog: A comprehensive sale process is underway for the sale of Conlog. The sale process has advanced to the point whereby a limited number of interested parties are being directly engaged, with a view to negotiating and concluding the sale transaction with a preferred party (or group of parties). The sale process was hampered due to the lengthy COVID-19 Level 4 lockdown in South Africa as well as the unrest, particularly in Durban where Conlog keeps its primary manufacturing facility and head office. As a result, the originally envisaged transaction is currently under review and the appropriate way forward for the asset is now being reassessed. Therefore, closing is no longer expected to be in Q1 of 2022. Upon determining the appropriate way forward for the asset, the Business Rescue team will engage with the relevant stakeholders to ensure alignment.
- 4.1.2. CBM: The sale process of CBM has advanced significantly, culminating in the signing of transaction agreements on or about 16 September 2021. There are a number of conditions precedent contained in the sale agreement, including the regulatory requirements of the CBM sale transaction, specifically the requirement for DMR Section 11 approval, which the Business Rescue team are now in the process of managing. Transaction closure is subject to the receipt of such regulatory approvals.
- 4.1.3. AES: The sale process of AES has advanced, culminating in the signing of transaction agreements on or about 7 November 2021. There are a number of conditions precedent contained in the transaction agreement, including certain regulatory requirements, which the Business Rescue team is in the process of managing. Transaction closure is subject to the receipt of such regulatory approvals, which are expected to be received in Q1 2022.

Sale of Smaller Assets:

- 4.1.4. CIGenCo: As per the Plan, the Ejuva assets (CIGenCo SA) was disposed of in April 2021. The remaining material assets within the CIGenCo business unit have been disposed of. As part of the sale of the Ejuva assets and the remaining assets, an element of deferred consideration exists which is in the process of being collected (to the extent possible). Collection of the deferred consideration, if due and payable, shall likely occur in Q1 2022.

4.1.5. Consolidated Power Projects Energy Solutions ("CONCO ES") – The Company is pleased to confirm that the sale process of its wholly owned subsidiary, CONCO ES, has been concluded. The transaction involved the sale of the ES business (defined in the sale agreement as selected contracts, employees and certain fixed assets and inventory) from CONCO ES to DLO Energy Solutions Proprietary Limited, a company owned by DLO Resources Group and JMD Energy Resources. This transaction enabled the Company to ensure that the ES business could continue to trade as a going concern and in so doing, ensured the retention of all current employees. DLO Energy Solutions is a 100% Black Owned, 51% Black Female Owned, level 1 BBBEE EPC and O&M Service Provider. It should be noted that one of the primary factors that enabled the transfer of employees from CONCO ES to DLO ES was the intention that the selected contracts considered within the sale of the CONCO ES business, included the ongoing contracts entered into between the Company's wholly owned subsidiary, Consolidated Power Projects Proprietary Limited (in business rescue) ("**CPP SA**") and certain entities within the Eskom Holdings SOC Limited group ("**Eskom**"). In this regard, CONCO ES, CPP SA and DLO ES continue discussions with Eskom regarding the cession of these contracts from CPP SA to DLO ES.
